

Table of Contents

Study Background.....	3
Overview of Results.....	3
Sample Description.....	4
Age.....	4
TABLE 1. Age of Participants.....	4
FIGURE 1: Percent of participants by age.....	4
FIGURE 2: Distribution of participants by age.....	5
Gender.....	6
TABLE 2. Male and female participants by age.....	6
FIGURE 3: Percent of Female and Male Participants.....	6
Education.....	7
TABLE 3. Self-Reported Education.....	7
Health.....	8
TABLE 4. Self-Reported Health Status for Participants by Age.....	8
FIGURE 4: Self-Reported Health Status for Total Sample.....	8
Frequency of Symptoms of Depression.....	9
TABLE 5. Self-Reported Symptoms of Depression.....	9
FIGURE 5: Percent Reporting Symptoms of Depression.....	9
Resilience Scale Results.....	10
TABLE 6. Resilience Scale Results for Total Sample.....	10
TABLE 7. Mean Scores of Resilience Scale Items.....	11
Age and Resilience Scale Scores.....	12
TABLE 8. Resilience Scale Scores In Five Age Groups.....	12
FIGURE 6: Average RS Scores by Age Group.....	12
Health and Resilience Scale Scores.....	13
TABLE 9. RS Average Scores and Self-Reported Health Status.....	13
Gender and Resilience Scale Scores.....	13
TABLE 10. Resilience Scale Results for Females and Males.....	13
Frequency of Symptoms of Depression and Resilience Scale Scores.....	14
TABLE 11. Average Resilience Scale Score among Participants Reporting Symptoms of Depression.....	14
FIGURE 7. Resilience Scale Scores and Symptoms of Depression.....	14
Correlational Analysis.....	15
TABLE 12. Correlations among RS Scores, Age, Depression and Health.....	15
Description of Resilience Scale Factors: Acceptance of Self and Life and Personal Competence.....	15
TABLE 13. Internal consistency reliability (coefficient alpha) for Acceptance of Self and Life (ASL) and Personal competence (PC).....	15
TABLE 14. Mean scores for ASL and PC factors in health and symptoms of depression sub-samples.....	16
Multiple Regression Analysis.....	16
TABLE 15. Regression model of independent variables on resilience.....	16
